## Career Objective

Motivated Computer Science undergraduate eager to contribute to software development and testing projects. Adept at quickly learning new technologies, applying analytical thinking, and delivering quality results. Seeking to leverage programming skills and emerging knowledge in software testing to add value during the internship program.

## Education

ABC Institute of Technology, Bengaluru  
CGPA: 8.2/10

B.Tech, Computer Science & Engineering — Expected 2026  
Class XII: 85% | Class X: 90%

## Skills

- Programming: Java, Python (Basics)
- Software Testing: Manual Testing, Test Case Writing, Unit Testing (JUnit), API Testing (Postman)
- Databases: MySQL (CRUD, Joins, Basic Modeling)
- Tools & Platforms: Git/GitHub, Selenium (Basics)
- Core Concepts: SDLC, Agile Methodology, Impact Analysis

## Projects

### Student Attendance Management System

Designed and implemented a simple database-driven application to manage attendance, incorporating CRUD operations and report generation.

### Weather Forecast Web App

Built a Python web app fetching live weather data from an API with unit tests for data processing logic.

## Certifications & Courses

- Software Testing Fundamentals — Guru99 (Ongoing)
- Java Programming — Coursera
- SQL for Beginners — Udemy

## Achievements

- Ranked in top 20% in inter-department coding contest.
- Volunteered as tech support for university cultural fest.
